

Dear Parents,

It is our hope that while you have fun this summer, you include "reading" in your daily fun activities! It is important to practice new skills on a daily basis to develop proficiency. While reading instruction is emphasized all year in school, children need to practice reading over the summer to maintain and strengthen these skills. To encourage your child to continue reading during the summer we have attached a list of suggested summer reading books. Have your child choose 2 favorite books and fill out the book reports. Send them to school in September.

Sincerely,
Mrs. Cochran
Mrs. Zanas
