

St. Bede's School is offering Mad Science of West New Jersey Classes for Grades K - 4

We spark imaginative learning when school is out! These hands-on, one-hour science programs are themed around a particular area of science and include such topics as rocketry, magnets, polymers and even the science of toys. Children engage in exciting hands-on activities, watch spectacular demonstrations, participate in inquiry-based discussions and take home things that they have made themselves like model rockets, periscopes, Mad Science putty and more. Mad Science after-school programs offer children a chance to see just how cool science can be!

The six (6) week classes will be held after school from 3:00 PM – 4:00 PM on Thursdays, starting on March 22, 2012 in the Science Lab (Note: due to there being no school on Holy Thursday (4/5), the last class will be May 3, 2012). Tuition is \$78 per child for the 6-week session.

To enroll, please complete the bottom portion with a check made payable to St. Bede's Home & School. Please return the form and the check in an envelope marked "MAD SCIENCE" by Thursday, March 8th.

Student Name: _____

Grade: _____ Classroom #: _____

Any medical conditions/allergies: _____

Parent Name: _____

Phone #: _____ (Home) _____ (Cell)
_____ (Work)

Email Address: _____

In case of an emergency, please contact (name & phone #):

At the end of class, my child will [] be picked up at the main entrance by _____
[] return to CARES.

Crazy Chemworks

Lab Works

Use your hands as a real Mad Scientist in this whirlwind class on how a lab works! Learn to manipulate laboratory equipment at your personal lab bench, and take home your very own Graduated Gear to continue your research!

pH Phactor

Slide down the colorful pH scale and dip into the world of acids and bases! Explore the pH extremes with your Reaction Tube in what is sure-to-be a popping experience! Discover whether liquids found in your home are acids or bases using your personal pH Paper!

Slime Time

Ooze into a gooey hour of sliming around! Create slime using the Mad Science recipe, and then enter the Slime Olympics! Take home your own concoction of Mad Science Slime!

Chem in a Flash

Hop on board the chemistry express for a high-speed science experience! Perform instantaneous experiments in this fast-paced class on split-second reactions that go like mad! Pick up an Action Flask and have a blast !

Super Sticky Stuff

Stick it to the walls, and push the power of tape to the limits in this adhesive hour on things that cling! Build a bond with glue and get attached to Professor Beakerdude!

Dry Ice Capades

Manipulate matter in all of its three states! Melt metal in boiling water and freeze water with just a breath of dry ice! Use your Thermocolor Cup to test the temperature of liquid matter in your home!
