

Password Protection

You are able to set passwords on your site to control access by viewers.

Password Protect the Entire Website

You can protect your **website** so that visitors cannot enter unless they submit a password chosen by you.

Leave the textbox blank for no password.

Be sure to give students and parents the password.

NOTE: DO NOT give the password you use to log in and work on your site.

Password Protect Individual Sections

You can control access to individual **Sections** of your website using passwords also.

This page will list your website sections. Use the table to add or remove passwords.

Password Protection

When you are logged-in, this link will show.

Setting Passwords [Back to My Web Page](#)

Use this page to set passwords.
NOTE: When you are **logged-in** and working on your site, you will not be asked for any passwords.

1. Password Protect the Entire Website

You can protect your website so that visitors cannot enter unless they submit a password chosen by you. Be sure to give students and parents the password. **NOTE: DO NOT** give the password you use to log in and work on your site.

Visitors are asked the password before entering your site. Leave the form blank for no password. Password is not case sensitive and can be changed, or made blank at any time. Max 8 chars.

2. Password Protect Individual Sections

You can control access to individual Sections of your website using passwords also. Sections are listed below.

Leave the Section blank for no password. Passwords are not case sensitive and can be changed, or made blank at any time. Max 8 chars.

Section	Password	Edit
Home	OXFNAF	Edit
Class News		Edit
Grades		Edit
Materials		Edit
Resource Links		Edit
Student Work		Edit
Homework		Edit

Section	Password	Edit
Home	<input type="text" value="OXFNAF"/> Max 8 chars.	Save Cancel
Class News		Edit
Grades		Edit
Materials		Edit
Resource Links		Edit
Student Work		Edit
Homework		Edit

Leave the Section blank for no password. Passwords are not case sensitive and can be changed, or made blank at any time.
